

# Theme Overview ~ Lights, camera, action

## Breadth of Study

### Science

With a heavy science focus, this topic we will use a range of our skills from sound, light and electricity to create our own backing accompaniment and foot lighting.

### ICT

We will use digital technology to create a design idea for our theatre background, to record our own music for our performances and to video the final performance which will then be edited.

### DT

Throughout this topic we will be using a range of skills to plan, design and create our own theatres including a backdrop, props and puppets to bring a Shakespeare scene to life

### Literacy/ Drama

Inspired by Shakespeare's works including Macbeth, we will re-create the characters through role play and design our own theatres based on one of the scenes to perform to others.

## Curriculum drivers

### Enterprise

Throughout our topic, we will have a range of performance opportunities within the class, to other children in our school and finally the community through our carol concert.

Enterprising is a service to others which provides something of value.

### Outdoor learning

Through our varied science learning, we will investigate light and shadows in our outside areas.

Making best use and getting most value from the outdoor environment, people and places including local settings.

### Active Learners

During this topic we will constantly be actively learning in our theatre workshops, our backstage tour, in class drama, science lessons and the creation of our DT theatres.

We want children to be active rather than passive learners; to be enquiring, physical and have NO WORKSHEETS!

### Multicultural

During our topic, we will explore shadow puppet theatres and their origins around the world from China, and Indonesia to India. Before comparing this to Elizabethan and modern theatres.

Broaden children's horizons, empathy and understanding of other cultures outside of Stockbridge.

## Enrichment

Visit: Salisbury Theatre

Visitor: Salisbury Theatre Workshops

Small scale visit: SADS (Stockbridge Amateur Dramatics)
