

Theme Overview ~ Heroes and Villains

Breadth of Study

History

As historians we will research a range of significant figures and events from Martin Luther King and sporting heroes to famous inventors to consider their impact and their influence on how we live today.

PSHE

Throughout our topic, we will reflect on the rule of law and democracy in historical and recent events. We will then explore ways we can make a positive contribution to our community.

DT

By the end of our topic, pupils will be able to describe and evaluate how inventors and their creations have helped shape the modern world, as well as the health and well-being of the nation.

ART

As artists, we will explore famous individuals through portraits before creating our own portraits using a range of media.

Curriculum drivers

Enterprise

During the topic we will explore we can do to help others and make a difference in either the school or in the local community.

Enterprising is a service to others which provides something of value.

Outdoor learning

Following discussion and consideration, we will venture into our school grounds and the local community in a pledge to make a difference ourselves.

Making best use and getting most value from the outdoor environment, people and places including local settings.

Active Learners

Throughout this topic, we will use drama, our school grounds and research to explore a range of different heroes and historical events.

We want children to be active rather than passive learners; to be enquiring, physical and have NO WORKSHEETS!

Multicultural

By exploring a range of significant individuals and heroes from different cultures and backgrounds around the world, we will explore and contrast hero qualities.

Broaden children's horizons, empathy and understanding of other cultures outside of Stockbridge.
