

# The way we manage children's special diets is changing.

We are moving to an online system instead of using the paper-based process.

So, if you would like your child/ren to continue to receive a special diet meal from September 2021, you'll need to create an online account and resubmit your medical evidence. Once you have created your account, your child(ren) can continue to receive an adapted menu for their school lunch.

You can manage your account quickly, safely and conveniently online by registering between

**1 July – 30 September.**

Add this link into your browser:

**[hants.gov.uk/hc3s-specialdiets](https://hants.gov.uk/hc3s-specialdiets)**

It only takes minutes and once you've registered, you can see your child(ren)'s individual menu and update medical evidence details whenever you need to. We'll also be able to send you updates when your child(ren)'s new menus are created.

All you need to do is simply upload your child's medical evidence and our team will match your application with the evidence we currently hold on file.

The new system will not affect the menu we provide for your child(ren). We remain dedicated to providing special diet menus for children who eat lunch in our schools.

If you have any questions, or have any difficulty in uploading the medical evidence, you can call our team on **023 8062 9388** or email **[hc3sfooddevelopment@hants.gov.uk](mailto:hc3sfooddevelopment@hants.gov.uk)** and one of the team will be happy to help you during office hours.

We hope you've been happy with our service and that your child will continue to have a school lunch with us during their school journey.
