DFE Guidance for Relationship Education in Primary School 2019	9

Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

RPSHE

At Stockbridge Primary and Pre- School, we teach Relationships, Personal, Social, Health Education as a whole-school approach to underpin children's development as people and because we believe that this also supports their learning capacity. We value RPSHE as one way to support children's development as human beings, to enable them to understand and respect who they are, to empower them with a voice and to equip them for life and learning.

We use The Jigsaw Programme which offers us a comprehensive, carefully thought-through Scheme of Work, bringing consistency and progression to our children's learning in this vital curriculum area. The overview of the programme can be seen on the school website.

This scheme also supports the "Personal Development" and Behaviour and Attitude" aspects required under the Ofsted Inspection Framework, as well as significantly contributing to the school's Safeguarding and Equality Duties, the Government's British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children. It also supports our Thrive (mental wellbeing) work which is now embedded within our school as well as our School Values.

Statutory Relationships and Health Education

"The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019, made under sections 34 and 35 of the Children and Social Work Act 2017, make Relationships Education compulsory for all pupils receiving primary education...They also make Health Education compulsory in all schools except independent schools. Personal, Social, Health and Economic Education (PSHE) continues to be compulsory in independent schools."

DfE Guidance p.8

"Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way."

"This is why we have made Relationships Education compulsory in all primary schools in England...as well as making Health Education compulsory in all state-funded schools."

"In primary schools, we want the subjects to put in place the key building blocks of healthy, respectful relationships, focusing on family and friendships, in all contexts, including online. This will sit alongside the essential understanding of how to be healthy."

"These subjects represent a huge opportunity to help our children and young people develop. The knowledge and attributes gained will support their own, and others' wellbeing and attainment and help young people to become successful and happy adults who make a meaningful contribution to society."

Secretary of State Foreword DfE Guidance 2019 p.4-5

"Schools are free to determine how to deliver the content set out in the DfE guidance 2019 in the context of a broad and balanced curriculum. Effective teaching in these subjects will ensure that core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way, within a planned programme of lessons."

DfE Guidance p.8

"All schools must have in place a written policy for Relationships Education and RSE."

Here, at Stockbridge Primary and Pre- School we include the statutory Relationships and Health Education within our whole-school PSHE Programme.

To ensure progression and a spiral curriculum, we use Jigsaw, as our chosen teaching and learning programme and tailor it to meet our children's needs. We are mindful of ensuring we are meeting our pupil's specific needs and therefore we will consult with children and parents so they feel part of the process and there is open dialogue between all. We also look for patterns and trends on C-POMS as this may identify a specific teaching need, for example friendship issues in a particular class. Our termly THRIVE class action plans as well as the individual action plans for certain children will inform our RPSHE teaching too. All of this ensures that we are tailoring the curriculum to meet the current needs of our children in any one term.

The mapping document: Jigsaw 3-11 and statutory Relationships and Health Education, shows exactly how Jigsaw and therefore our school, meets the statutory Relationships and Health Education requirements (see page 5).

This programme's complimentary update policy ensures we are always using the most up to date teaching materials and that our teachers are well-supported to deliver this curriculum.

Teaching and learning - Whole-school approach

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

Term	Puzzle (Unit)	Content
Autumn 1:	Being Me in My World	Includes understanding my own identity and how I fit well in the class, school and global community. Jigsaw Charter established.
Autumn 2:	Celebrating Difference	Includes anti-bullying (cyber and homophobic bullying included) and understanding
Spring 1:	Dreams and Goals	Includes goal-setting, aspirations, who do I want to become and what would I like to do for work and to contribute to society
Spring 2:	Healthy Me	Includes drugs and alcohol education, self-esteem and confidence as well as healthy lifestyle choices, sleep, nutrition, rest and exercise
Summer 1:	Relationships	Includes understanding friendship, family and other relationships, conflict resolution and communication skills, bereavement and loss
Summer 2:	Changing Me	Includes Relationships and Sex Education in the context of coping positively with change

At Stockbridge Primary and Pre-School we allocate at least 1 hour to PSHE each week in order to teach the PSHE knowledge and skills in a developmental and age-appropriate way. Wherever possible class teachers deliver the weekly lessons to their own classes.

These explicit lessons are reinforced and enhanced in many ways:

- Assemblies and collective worship
- Our school values
- Praise and reward systems.

- Stories related to each unit.

We aim to 'live' what is learnt and apply it to everyday situations in the school community.

Monitoring and Assessment

Each lesson has a formative assessment task where pupils can self or peer assess.

To support the teacher in tracking each child in a mixed year group, there is a Summative Assessment form, tracking pupils progress each term. This has three attainment descriptors for each Puzzle. The teacher can then use a 'best-fit' approach to decide whether the child is working towards, working at or working beyond for that Puzzle. This will also flag up children who may need more support with emotional literacy or social skills development and they can be signposted to the school's pastoral support systems as appropriate such as Thrive. Alongside this summative assessment, teachers will also add informal observations of children using what they have learnt from a unit, within other areas of school life.

Assessment information will be collated over the year to ensure continuity and progress for the next class teacher.

The PSHE lead will observe lessons, pupil/work conference and look at internal data (CPOMs) to find out how successfully children are learning and being taught.

Relationships Education

Relationships Education in primary schools will cover 'Families and people who care for me', 'Caring friendships', 'Respectful relationships', 'Online relationships', and 'Being safe'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Relationships Puzzle (unit) in Jigsaw covers most of the statutory Relationships Education, some of the outcomes are also taught elsewhere in Jigsaw e.g. the Celebrating Difference Puzzle helps children appreciate that there are many types of family composition and that each is important to the children involved. This holistic approach ensures the learning is reinforced through the year and across the curriculum.

Health Education

Health Education in primary schools will cover 'Mental wellbeing', 'Internet safety and harms', 'Physical health and fitness', 'Healthy eating', 'Drugs, alcohol and tobacco', 'Health and prevention', 'Basic First Aid', 'Changing adolescent body'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Healthy Me Puzzle (unit) in Jigsaw covers most of the statutory Health Education, some of the outcomes are taught elsewhere in Jigsaw e.g. emotional and mental health is nurtured in every lesson through the Calm me time, social skills are grown every lesson through the Connect us activity and respect is enhanced through the use of the Jigsaw Charter.

Also, teaching children about puberty is now a statutory requirement which sits within the Health Education part of the DfE guidance within the 'Changing adolescent body' strand, and in Jigsaw this is taught as part of the Changing Me Puzzle (unit).

Again, the mapping document transparently shows how the Jigsaw whole-school approach spirals the learning and meets all statutory requirements and more.

Sex Education

The DfE Guidance 2019 (p.23) recommends that all primary schools *'have a sex education programme tailored to the age and the physical and emotional maturity of the pupils. However, 'Sex Education is not compulsory in primary schools'.* (p. 23)

Schools are to determine the content of sex education at primary school. Sex education *'should ensure that both boys and girls are prepared for the changes that adolescence brings and – drawing on knowledge of the human life cycle set out in the national curriculum for science - how a baby is conceived and born'.*

“Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory Relationships and Sex Education” DfE Guidance p. 17

At Stockbridge Primary and Pre-School we believe children should understand the facts about human reproduction before they leave primary school so puberty is taught as a statutory requirement of Health Education and covered by our Jigsaw PSHE Programme in the ‘Changing Me’ Puzzle (unit), and we conclude from the DfE Guidance that sex education refers to Human Reproduction. In order to teach this in a scientific context, and knowing that National Curriculum Science requires children to know how mammals reproduce, we have opted to teach this within our Science curriculum, not within PSHE or Relationships and Sex Education as we believe this is most appropriate for our children. Therefore the parent right to withdraw their child is not applicable. We are of course happy to discuss the content of the curriculum and invite you to contact the Headteacher.

Parental involvement and consultation

Sex and Relationship Education is a shared responsibility. What the children learn in school can be supported by parents at home. We hope that parents will feel able to answer their child’s questions and assist the school in the development of his / her understanding and responsibility regarding SE issues.

Parents are informed about the school’s Health, Relationships and Sex Education programme and this policy is available on request.

Parents will be informed in advance when more sensitive topics are to be taught, in order that they may prepare themselves for questions, as well as to support their child’s understanding. For example in Changing Me (Term 6):

Year 4, Lesson 2 (Having a baby)

Year 5, Lesson 4 (Conception)

Year 6, Lesson 4 (Conception, birth)

Parents will be invited to view the content of the programmes and raise any questions or concerns with the PSHE Leader and/or the class teacher.

Special Needs provision

The Jigsaw programme is a PSHE curriculum provision for all children. Inclusivity is a key part of its philosophy. Teachers will need, as always, to tailor each Piece to meet the needs of the children in their classes. To support this differentiation, many Jigsaw Pieces suggest creative learning activities that allow children to choose the media with which they work. To further help teachers differentiate for children in their classes with special educational needs, there is additional support on the Community Area of the Jigsaw website under Resources.

At Stockbridge Primary School, PSHE Relationship & Health Education and Sex Education is taught with due regard for the school’s SEN policy. We teach Sex Education to all children, including those with special educational needs, ensuring full entitlement and access for all. Through our teaching of this curriculum we provide learning opportunities that enable all pupils to make progress. We do this by ensuring that our teaching is matched to the child’s needs. The Jigsaw Programme’s spiral approach also supports this.

Equality

This policy will inform the school’s Equalities Plan.

The DfE Guidance 2019 (p. 15) states, “Schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect. Schools must ensure they comply with the relevant provisions of the Equality Act 2010 under which sexual orientation and gender reassignment are amongst the protected characteristics...”

At the point at which schools consider it appropriate to teach their pupils about LGBT (Lesbian, Gay, Bisexual, Transgender), they should ensure this content is fully integrated into their programmes of study for this area of the curriculum rather than delivered as a stand-alone unit or lesson. Schools are free to determine how they do

this, and we expect all pupils to have been taught LGBT content at a timely point as part of this area of the curriculum”.

At Stockbridge Primary and Pre-School we promote respect for all and value every individual child. We also respect the rights of our children, their families and our staff, to hold beliefs, religious or otherwise, and understand that sometimes these may be in tension with our approach to some aspects of Relationships, Health and Sex Education. We aim to work in partnership with Parents, providing opportunities for them to view resources to be used and raise any concerns.

For further explanation as to how we approach LGBT relationships in the PSHE (RSHE) Programme please see: *'Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?'*

Our RPSHE policy is informed by existing DfE guidance:

- [Keeping Children Safe in Education](#) (statutory guidance)
- [Respectful School Communities: Self Review and Signposting Tool](#) (a tool to support a whole school approach that promotes respect and discipline)
- [Behaviour and Discipline in Schools](#) (advice for schools, including advice for appropriate behaviour between pupils)
- [Equality Act 2010 and schools](#)
- [SEND code of practice: 0 to 25 years](#) (statutory guidance)
- [Alternative Provision](#) (statutory guidance)
- [Mental Health and Behaviour in Schools](#) (advice for schools)
- [Preventing and Tackling Bullying](#) (advice for schools, including advice on [cyberbullying](#))
- [Sexual violence and sexual harassment between children in schools](#) (advice for schools)
- [The Equality and Human Rights Commission Advice and Guidance](#) (provides advice on avoiding discrimination in a variety of educational contexts)
- [Promoting Fundamental British Values as part of SMSC in schools](#) (guidance for maintained schools on promoting basic important British values as part of pupils' spiritual, moral, social and cultural (SMSC))
- [SMSC requirements for independent schools](#) (guidance for independent schools on how they should support pupils' spiritual, moral, social and cultural development).

The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

Relationships Education in Primary schools – DfE Guidance 2019

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults.

The guidance states that, by the end of primary school:

	Pupils should know...	How Jigsaw provides the solution
Families and people who care for me	<ul style="list-style-type: none"> that families are important for children growing up because they can give love, security and stability. the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives. that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care. that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up. that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong (Marriage in England and Wales is available to both opposite sex and same sex couples. The Marriage (Same Sex Couples) Act 2013 extended marriage to same sex couples in England and Wales. The ceremony through which a couple get married may be civil or religious). how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> Relationships Changing Me Celebrating Difference Being Me in My World
Caring friendships	<ul style="list-style-type: none"> how important friendships are in making us feel happy and secure, and how people choose and make friends the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed 	As above
Respectful relationships	<ul style="list-style-type: none"> the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make 	As above

	<p>different choices or have different preferences or beliefs</p> <ul style="list-style-type: none"> ● practical steps they can take in a range of different contexts to improve or support respectful relationships ● the conventions of courtesy and manners ● the importance of self-respect and how this links to their own happiness ● that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority ● about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help ● what a stereotype is, and how stereotypes can be unfair, negative or destructive ● the importance of permission-seeking and giving in relationships with friends, peers and adults 	
Online relationships	<ul style="list-style-type: none"> ● that people sometimes behave differently online, including by pretending to be someone they are not. ● that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous. ● the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. ● how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. ● how information and data is shared and used online. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> ● Relationships ● Changing Me ● Celebrating Difference
Being safe	<ul style="list-style-type: none"> ● what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). ● about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe. ● that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact. ● how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know. ● how to recognise and report feelings of being unsafe or feeling bad about any adult. ● how to ask for advice or help for themselves or others, and to keep trying until they are heard, ● how to report concerns or abuse, and the vocabulary and confidence needed to do so. ● where to get advice e.g. family, school and/or other sources. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> ● Relationships ● Changing Me ● Celebrating Difference

Physical health and mental well-being education in Primary schools – DfE Guidance

The focus in primary school should be on teaching the characteristics of good physical health and mental wellbeing. Teachers should be clear that mental well-being is a normal part of daily life, in the same way as physical health.

By the end of primary school:

	Pupils should know	How Jigsaw provides the solution
Mental wellbeing	<ul style="list-style-type: none"> • that mental wellbeing is a normal part of daily life, in the same way as physical health. • that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations. • how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings. • how to judge whether what they are feeling and how they are behaving is appropriate and proportionate. • the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness. • simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests. • isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support. • that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being. • where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online). • it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me • Relationships • Changing Me • Celebrating Difference
Internet safety and harms	<ul style="list-style-type: none"> • that for most people the internet is an integral part of life and has many benefits. • about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing. • how to consider the effect of their online actions on others and knowhow to recognise and display respectful behaviour online and the importance of keeping personal information private. • why social media, some computer games and online gaming, for example, are age restricted. • that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. • how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Relationships • Healthy Me

	<ul style="list-style-type: none"> • where and how to report concerns and get support with issues online. 	
Physical health and fitness	<ul style="list-style-type: none"> • the characteristics and mental and physical benefits of an active lifestyle. • the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise. • the risks associated with an inactive lifestyle (including obesity). • how and when to seek support including which adults to speak to in school if they are worried about their health. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me
Healthy eating	<ul style="list-style-type: none"> • what constitutes a healthy diet (including understanding calories and other nutritional content). • the principles of planning and preparing a range of healthy meals. • the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health). 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me
Drugs, alcohol and tobacco	<ul style="list-style-type: none"> • the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me
Health and prevention	<ul style="list-style-type: none"> • how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body. • about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer. • the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn. • about dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist. • about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing. • the facts and science relating to immunisation and vaccination 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me
Basic first aid	<ul style="list-style-type: none"> • how to make a clear and efficient call to emergency services if necessary. • concepts of basic first-aid, for example dealing with common injuries, including head injuries. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me
Changing adolescent body	<ul style="list-style-type: none"> • key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes. • about menstrual wellbeing including the key facts about the menstrual cycle. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Changing Me • Healthy Me
