

8 October 2025

Dear Parents & Carers,

New catering arrangements

We are getting prepared in school for the changeover to our new caterers, CleverChefs, who will take over the catering immediately after October half term.

A critical part of this handover is ensuring that children with special diets; allergies, intolerances and lifestyle choices, are known and shared so that they can be accommodated accurately and safely.

If your child has ANY food allergies or intolerances or, a lifestyle choice eg, vegan, pescatarian etc, please complete the CleverChefs survey using this link below:

<https://forms.gle/1h8epx32gbkPSMP77>

Please complete this by Wednesday 15th October so that special menus can be issued to you in a timely fashion before half term.

Cleverchefs is one of our critical partners whom we data share with and as such, we are processing information about children and their needs with them to ensure a smooth handover and ensure you are all set up on their system for online ordering. The lawful reasons for processing personal data in respect of our relationship with them are:

Contractual; processing of data is necessary for the performance of a contract

Vital interests: to ensure that dietary requirements are shared and known

The main menu will be coming to all families in the coming weeks and information will be sent to you to get you set up on their app as all food orders and payments will be done via their app rather than through the office – more on this later.

Thanks!

Mrs Jefferies
